

Brussels, 31 January 2020

FEICA and EFCC suggested list of Interchangeable Component Group (ICG) names

FEICA (Association of the European Adhesive & Sealant Industry) and EFCC (European Federation of Construction Chemicals) welcome the discussions during the 33 CARACAL meeting on 15 January 2020 on ICG names and functions. We believe that the EU COM inquiry to industry for additional proposed ICG names, serves as a good example to further improve the Poison Centre Notification (PCN) format. Please kindly find below a non-exhaustive list of technical functions and suggested ICG names on behalf of FEICA and EFCC for your consideration.

Technical function	Suggested ICG names	Comments
pH adjustment	ICG pH Adjustment#	Caustic Soda
Softener (water)	ICG Softener#	Natriumhexametofosfaat
Hardener	ICG Hardener#	MDI, HDI, Amines
Fillers	ICG Filler#	CaCo3, Ba2SO4, Kwartzmehl, Kwartsand
Polyols	ICG Polyols#	Castor olie 1e persing, modified Castor olie polyol
Natural Resins	ICG Natural resins#	Gumrosin
Deairing surfactants	ICG Deairing surfactants#	
Wetting agent fillers	ICG Wetting agent fillers#	
Thixotropic agent	ICG Thixotropic agent#	
Tackifier	ICG Tackifier#	
Crosslinker	ICG Crosslinker#	
HALS (Hindered Amine Light Stabiliser)	ICG Hindered Amine Light Stabiliser#	
Booster	ICG Booster#	
Coalescing agent	ICG Coalescing agent#	
Anti-ozonant	ICG Anti-ozonant#	
Additives	ICG Additives#	e.g. Anticoagulant
Pigment	ICG Pigment#	e.g. pigment paste
Hydrocolloid	ICG Hydrocolloid #	Water soluble and/or swellable polymers such as Xanthan, Welan, Diutan, as well as polyacrylamides, superabsorber starch ether, modified MC compounds

Silicate filler	ICG Silicate filler #	Different types of silicate filler such as microsilica, metapor, metakaolines, feldspar etc.
Polymer emulsion	ICG Polymer emulsion #	Acrylic, VA-E, PVDC, PU a.s.o.
Resin	ICG Resin #	Colophony, hydrocarbon, epoxy a.s.o.
Silane polymers	ICG Silane polymers#	Silane terminated polymer (SMP), polychloroprene, acrylic, VA a.s.o.
Bitumen emulsion (anionic)	ICG Bitumen emulsion#	Bitumen emulsion-based products; Füllstoffe, Verdicker, Entschäumer
Technical calcium sulfates	ICG Calcium sulfates tech#	Calciumsulfate with different water have different CAS, but technical products very often contain different phases. It would be useful to have a group for calcium sulfates with different hydration steps.
Aluminate cements	ICG Aluminate cements#	
Lubricants	ICG Lubricants#	Diverse liquids to be used in dry mortar formulation (dust reduction, shrinkage reduction etc.

We thank you in advance for taking into account our integrated industry input.
