

FOR IMMEDIATE RELEASE

Brussels, 4 November 2021

The European adhesives and sealants market 2021-2026: a quantitative demand analysis and trend forecast

The 2021-2026 Market report is the seventh edition of FEICA's market study titled 'The European Adhesives and Sealants Market' and prepared by Smithers on behalf of FEICA, the Association of the European Adhesive and Sealant Industry. Because of the impact on the EU market of the COVID-19 pandemic, FEICA commissioned this latest edition in 2021. The market is defined for the year 2020, and a demand forecast for the period 2021-2026 is also provided. The statistical data are reported in tonnes and euro currency.

The FEICA market study again provides indispensable insights to help companies better position themselves for success in today's challenging business environment. The geographic scope of the study encompasses Europe, including Western Europe, Central and Eastern Europe (CEE) and Turkey. The European region is split into 5 regional markets, which are analysed by market segment and product category.

The FEICA market study is the only adhesives and sealants report based on primary research, drawing its data from direct interviews with stakeholders in the adhesive and sealant industry. As such, it has established itself as the industry's definitive European reference guide.

The study follows the harmonised FEICA-ASC-CATIA Adhesives and Sealants Classification Manual. Furthermore, the 200+ page report is structured in such a way as to facilitate international comparisons between Europe, NAFTA and the Asia-Pacific region. The markets of the latter two regions are analysed in separate companion reports offered by the Adhesive and Sealant Council (ASC).

Kristel Ons, FEICA Secretary General, stated '*The European adhesives and sealants market is forecast to grow to €22.2 billion by 2026, at a compound annual growth rate (CAGR) of 3.6 % for 2021-26. In the upcoming years, there will be a continued strong demand for safe, recyclable, sustainable adhesives and sealants products, where price and quality remain key.*'

The brochure and order form are available to download from the FEICA website here:

About FEICA

FEICA, the Association of the European Adhesive & Sealant Industry is a multinational association representing the European adhesive and sealant industry. With the support of its national associations and several direct and affiliated members, FEICA coordinates, represents and advocates the common interests of our industry throughout Europe. In this regard FEICA aims to establish a constructive dialogue with legislators in order to act as a reliable partner to resolve issues affecting the European adhesive and sealant industry.

Our industry provides leading edge technologies that make the manufacture and supply of many everyday products possible; it contributes greatly to the European and global economy, fosters sustainable development, encourages innovation and offers stimulating careers for people with a wide range of skills.
